

# 6 Ways Edenred Pay Invoice Automation Beats Traditional Media EDI

Traditional media EDI hasn't lived up to its billing. Suppliers can never be sure if or when their invoice has been received. Suppliers must call or email agencies to learn where things stand in the payment process. And it can be weeks before suppliers know there's a problem with an invoice they submitted, which delays payment. Edenred Pay Invoice Automation overcomes these challenges.

Compare the difference between Edenred Pay Integrated Invoice Automation and Traditional Media EDI:

## Edenred Pay Invoice Automation

## Traditional Media EDI

Processes invoices for any type of media.

Only work for Spot and Network.
